

We are Summit Pharmaceuticals Europe.

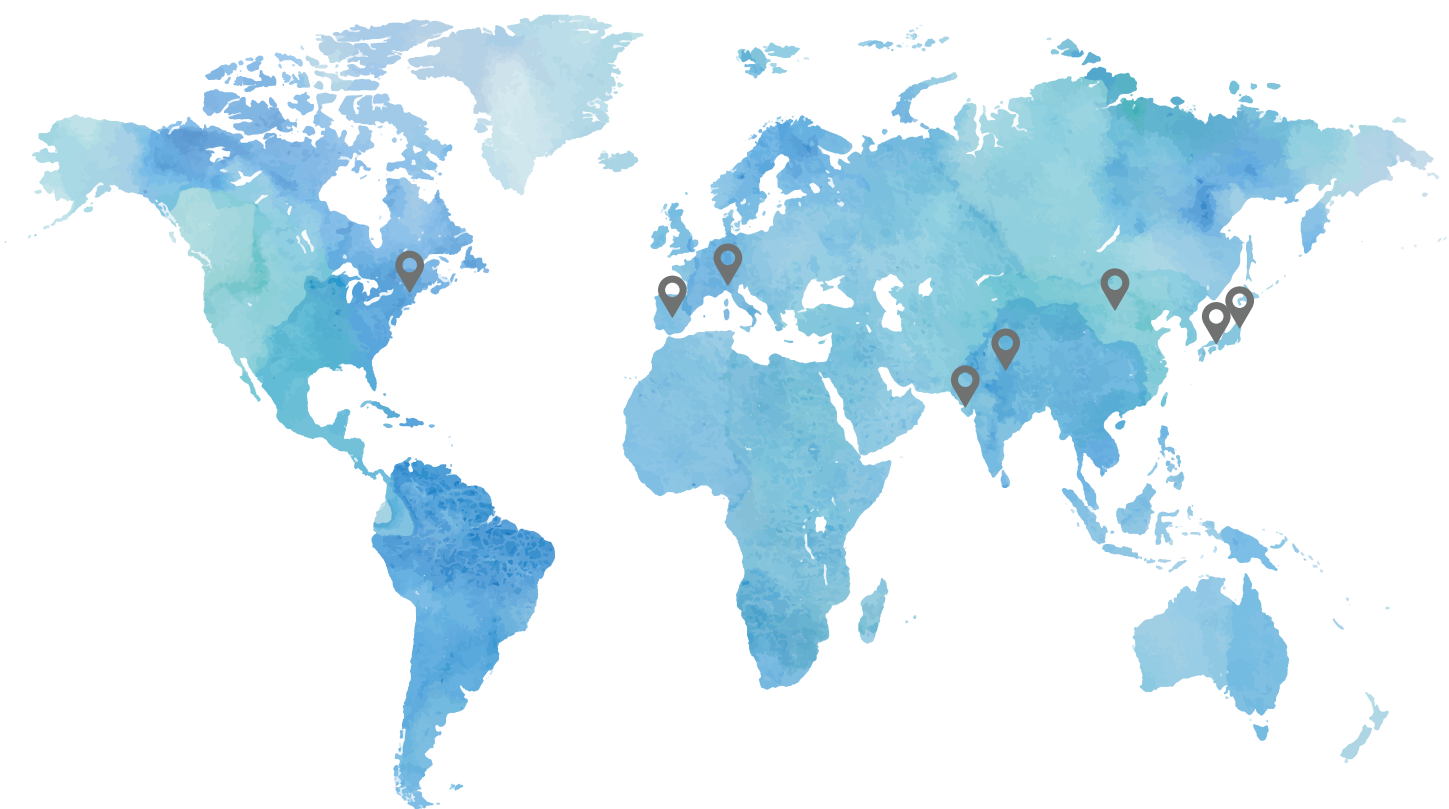

We specialize in the sourcing and supply of raw materials, key intermediates, active ingredients (APIs) and formulations to the pharmaceutical industry. We are 100% part of Sumitomo Corporation, a leading Japanese integrated trading company.

Operating in Europe since over 20 years, we are strategically placed through two offices based in Milan and Madrid.

We work closely with our Group Companies around the world to ensure to provide a global network to our customers. With extensive experience in custom manufacturing, compound licensing opportunities and research alliance, the specialists in Summit Pharmaceuticals Europe can meet the needs of all customers in the pharmaceutical field.

Using our local expertise accumulated over many years, together with our global network of other divisions and with Sumitomo Corporation, experts can select competitive and reliable suppliers, monitor their performance and progress, always ensuring on-time supply.

Purpose and Vision

We contribute to **healthier lives around the world** by providing high quality services for our partners' innovation and development in the pharmaceutical field and a stable supply to society.

We achieve **sustainable growth** for our future selves and loved ones, enriching lives.

We shall be an **irreplaceable business developer** who has a responsible and valuable role in Europe for diversifying benefit origins.

We shall always challenge ourselves to establish **new projects through innovative ideas** and utilize our global network.

We shall continuously strive to improve ourselves to maintain **a high level of internal control** and become a role model within the Sumitomo Corporation group.

Our Mission

As part of the Sumitomo Corporation Group we follow the organisation's Corporate Mission Statement, consisting of the Management Principles and the Activity Guidelines. These are the fundamental and ultimate value standards of the Company.

The Management Principles are the redefinition of Sumitomo's business philosophy, which has been cultivated over its 400 years of business history. The Activity Guidelines stipulate the required behaviour of the Company and its officers and employees and provide the means to realise the Management Principles.

Our Global Network

We can fully support your business with a network strategically located on a global basis.

Local presence accumulated over many years, together with a professional team operating in a worldwide network allows us to select cost effective and reliable suppliers, monitor their performance and progress, ensuring we deliver on-time supply to our customers.

Our Services

Summit Pharmaceuticals Europe is specialized in the sourcing and supply of pharmaceutical raw materials, key intermediates, active ingredients (APIs) and formulations. We understand your need when you are looking for an experienced navigator who can identify and steer you through the most efficient business route – a partner you can trust – a consultant who has your best interest in mind and can offer international expertise and resources that will help you with your strategic expansion goals. Summit Pharmaceuticals Europe provides the information and resources that can help strengthen your planning, development and investment activities.

- **We match customer needs with supplier goods and services.**
- **We specialize in sourcing and supplying pharmaceutical raw materials, key intermediates, active ingredients (APIs) and formulations.**
- **With extensive experience in custom manufacturing, compound licensing opportunities and research alliance, specialists in Summit Pharmaceuticals Europe can meet the needs of all pharmaceutical companies.**
- **We ensure that specifications are met. We arrange goods delivery, including export/import clearances and customs duties.**
- **We constantly adapt in order to stay ahead of the changing markets.**

Summit Pharmaceuticals Europe's headquarters are in Milan, Italy, and one office is based in Madrid, Spain. This means we can provide you with an extensive range of services and products, complying with all the existing regulations.

1. Regulatory

We keep ourselves **constantly up to date** regarding all the **EU regulations** involved in the **manufacturing, registration and commercialization of FDF, APIs** and intermediates in Europe, such as **REACH, CLP**, national and international directives.

Our Japanese offices provide regulatory support and this allow us to apply on behalf of our partners for **Accreditation of Foreign Manufacturer (FMA)**, **registration of Japanese Drug Master File (JDMF)**

and **GMP Conformity Assessment**, required for the sales of both APIs and FDF to Japan.

Full support is also assured to our partners who intend to sell APIs and FDF to China. Indeed, our Beijing office (SPC) provides the full regulatory support for obtaining the needed import license.

2. Custom manufacturing

With **30-years of experience in Pharma and being part of Sumitomo Corporation**, we support **pharmaceutical and biotech companies** from early stage project development up to commercial phases by finding the best solutions for the optimization of each customer activity.

Our **worldwide network will give you access to the most reliable and cost-effective supply chain for all your requirements**, always putting quickness, quality and business safety first.

With our multilayer approach, we are in the position to support the **full product lifecycle**, from early development phases up to process cost improvements in commercial phase through supply chain coordination and our dependable partners.

Thanks to SPE support, your company will have access to the whole world and have the chance to increase business opportunities, always with the reliability guarantee of Sumitomo Corporation brand. **We are supporting your value-up!**

3. Supply Raw Materials

With an **extensive range of products** we are able to provide integrated services for the pharmaceuticals industry, from raw materials and APIs up to finished dosage forms.

Thanks to **our global network and connections all over the world** we can support your company in

developing and finding innovative solutions, creating new opportunities to become successful in the pharmaceutical market.

Reliability, long experience and flexibility make Summit Pharmaceuticals Europe the best partner for your challenges in the global market.

4. Bio Services

SPE is committed to your success and constantly strive to build strong partnerships that reach beyond product delivery. We recognize your product's potential and help you to realize it to success by our broad experience. We understand your need to stay involved and informed. Thanks to our partners, we can offer in-depth experience with a wide range of biological, ranging from stable high-producer cell line development, comprehensive analytics (biochemical, biophysical, potency

and mode-of-action) and analytical development, over to robust and economical production processes for the API and up to larger-scale manufacturing.

With our global network we can support you finding the best business partners and licensing opportunities. By contributing with our expertise to your product innovations, we set a course for mutual continuous success.

5. Finished Dosage Forms

Our **Pharmaceutical division provides strategic solutions for the generic markets thanks to the collaboration with selected partners which are specialized in unique technologies and with specific expertise in the manufacturing of the drug products and in the regulatory service.** Our flexibility is what allows us to respond to the different needs of our customers.

Our solutions cover the **whole cycle of a pharmaceutical product** supporting our customers from the development stage up to the commercial distribution providing dossier and Marketing Authorization, technology transfer, commercial supply

of finished product. We also provide CMO service according to our customer's needs.

To grant the best opportunities in the market to our customers **we directly explore the market opportunities and select the most effective supply chain well supported by our global network and local presence worldwide.**

Information, people, expertise, are the key resource to succeed in the pharmaceutical generic market.

Partners

Our international partners have a proven track record of delivering innovative and high-quality products and solutions. We collaborate with companies that share our vision of excellence and commitment to the customer, always ensuring maximum value and outstanding results.

Together, we are able to tackle the most complex challenges and create opportunities for growth and success for our clients, allowing us to offer tailor-made solutions for every need. Thanks to these strategic collaborations, we can guarantee a top-level service based on innovation, reliability, and continuous improvement.

EcoVadis

Summit Pharmaceuticals Europe S.r.l. is deeply committed to promoting sustainable and responsible practices across all its operations. To ensure that its efforts are measurable and transparent, it has chosen to partner with EcoVadis, one of the leading global platforms for corporate sustainability assessment.

EcoVadis enables the company to evaluate and monitor its performance in environmental, social, and governance (ESG) areas through an internationally recognized scoring system. This allows the company to identify areas for improvement, implement effective strategies, and communicate its progress clearly and credibly to its stakeholders.

By using EcoVadis, the company demonstrates its commitment to sustainability and social responsibility, strengthening the trust of its customers and partners.

The Company firmly believes that a sustainable approach not only contributes to a better future for the planet but also represents a competitive advantage in the global market.

Summit Pharmaceuticals Europe S.r.l. is proud to announce that it has been awarded the Silver Medal by EcoVadis, a testament to its commitment to sustainability and corporate responsibility. This prestigious recognition places SPE among the top 25% of companies assessed by EcoVadis, highlighting its dedication to environmental stewardship, social responsibility, and ethical governance. The Silver Medal reflects SPE's continuous efforts to integrate sustainable practices into its business operations, ensuring that it not only meets but exceeds industry standards.

Summit Pharmaceuticals Europe S.r.l. encourages its esteemed current and potential business partners to register their company on the EcoVadis platform, review the associated conditions, and complete the sustainability assessment. By registering, you will gain access to valuable insights and benchmarks that can help improve your sustainability practices and enhance your company's reputation.

SPE remains committed to further improving its sustainability performance and contributing positively to the global community.
